LC Loopback

Description

Refer to the diagram above for dimensional information. These connectors are precision made and manufactured to demanding specifications. LC Loopback are capable of performing in the 1310 nm for Single-Mode and in the 850 nm for Multi-Mode.

Features

- High density applications
- Low Loss
- Easy Installation
- Suited for high power applications
- Conforms to IEC61754-20
- All components conform to RoHS

Application

- Telecommunications
- LAN & WAN
- Ethernet networks
- Broadband Network

Parameter

	EA9003	EA9004
Parameter	**Specifications**	
	Multimode	Singlemode
Insertion Loss (LED source)	⩽2dB	⩽10dB
Return Loss (LED source)	/	⩽-50dB
Withdrawal	850nm	1310nm
Operating Temperature	-40℃~+75℃	
Storage Temperature	-40℃~+75℃
